

A. Regulations and guidelines for Road Opening Utility Cuts.

1. All right of way surfaces paved and unpaved must be backfilled with #2A modified (crushed Limestone).
2. Backfill must be compacted in no more than four (4) inch lifts.
3. The contractor must repair the road opening immediately after backfilling. Cold patch material must be used if final paving can not be completed after backfilling.
4. The contractor must repair and maintain the road opening in a safe manner, prior to final paving.
5. Final paving must be completed before the expiration date of the permit.
6. The contractor must give the Township (24) hours notice before the start of any work.
7. The contractor must follow OSHA regulations Subpart P.
8. All work must meet Township specifications and with the Township inspections persons approval.

B. Requirements for Closing the Road to Traffic

1. Only one (1) road crossing shall be under construction at a time.
2. The road must be opened at the end of the work day.
3. Signs must be placed at the appropriate locations to notify motorists of an alternate route or work ahead.
4. The road must be opened to the construction site within a safe distance.
5. A minimum of seventy two (72) hours notice must be given to:

Adams Township 724-625-2221

Adams Township Police, Fire and EMS 724-282-1221

Adams Township residents that are affected.
